

JAMIE MASON COHEN

TEDx Speaker, #1 Amazon bestselling author, handwriting analysis expert

Jamie Mason Cohen helps people transform their mindset, inspires them to take action and guides them to build more fulfilling relationships through their handwriting.

He is a keynote speaker, certified handwriting analysis expert, a TEDx speaker on leadership in handwriting, a HUFF Post international educator's award winner and a #1 Amazon best-selling author, who once worked for *Saturday Night Live*.

He discovers positive personality traits in each person's handwriting that make them say, "wow," and then leads them to find it within themselves to turn those insights into action to improve their lives. He has shown small business owners success traits that make an outstanding brand, presented entrepreneurs with the tools to pick the right person for their organization, provided parents and teachers with strategies to build teenagers' resilience, assisted singles in knowing whether the person they are dating is someone they can trust and demonstrated to couples how they can better meet each other's needs.

"Jamie has the ability to identify peoples' leadership qualities, 'promote' those qualities and send them away to be confident that they are the 'best' reflection of their handwriting."

- Dirk Daenen, TEDx Organizer, Dean, United Business Institutes, Belgium

"After Jamie's talk, there was a long line of people who wanted to open up to him and have him analyze their signatures. I highly recommend Jamie if you're looking for a keynote who can truly captivate and inspire an audience."

- Kurt Vermont, Director, Speaker Relations, DYPB Conference
